When it is set, and when it is paid. Fees are set nationally and locally each January, and the rates that apply are those in force in the year of your wedding — so a wedding booked now for a later year will be charged at that year's figures, and we will tell you them in good time.

A gift towards the church. If you would like to give something towards the upkeep of the church and grounds, it is gratefully received. There is no expectation of it.
